

- Grommets and wire clips are included per Original Equipment specifications to ensure proper mounting and routing within the car chassis
- Sensor housing is made from high quality reinforced plastic, offering superior resistance to the elements.
- OE connectors and terminals made from premium material are used to ensure an accurate, water-tight connection to the engine wire harness
- Wire harness comes with protective sleeve to prevent wires from damage

ABS SENSORS

Anti-lock Braking Systems allow the driver to maintain control of the car in an emergency braking situation. The ABS system relies on sensors to monitor the speed of the wheel and communicate with the ABS computer to ensure ideal performance. The data from the ABS sensor allows the computer to balance the speed of each wheel to prevent the brakes from locking, avoiding dangerous sliding or skidding.

- Holstein uses only the highest quality materials in our parts, for an aftermarket product that is truly built to OE form, fit, and function
- Holstein ABS sensor line has superior coverage for domestic and import applications
- Over 1500 ABS numbers available - with an average of 30 added every month
- 3 year 36,000 mile warranty on all products
