

- More than 190 SKU's covering 97% of the North American market
- Reinforced materials protect against sludge build-up and oil leaks
- Units are tested to ensure correct flow and oil pressure to maximize performance
- Premium O-rings and gaskets are used to enhance product life and reliability

VARIABLE VALVE TIMING SOLENOID

The Variable Valve Timing Solenoid alters the supply of oil pressure to the camshaft depending on the speed and load of the engine and can either advance or retard cam position which provides several benefits, including improved engine operation, increased engine power reduced fuel consumption and decreased emissions.

- Holstein focuses on using only the highest quality materials, manufactured to exacting standards for an aftermarket product that is truly built to match or exceed the OE part
- Holstein Variable Valve Position Sensor line has superior coverage for domestic and import applications
- Designed to maximize engine performance and fuel efficiency
- 3 Year / 36,000 Mile Warranty on all Holstein Parts VVT Sensors
